AB 680 (Hall) - Civil Fees FACT SHEET

ISSUE

Under current law, a county sheriff's office is authorized to collect various civil fees for serving, executing, and processing required court notices, writs, orders and other services provided by a sheriff's officer.

While the cost associated with these services has increased dramatically in recent years, most of the civil fees have remained stagnant since 2000. Fuel prices alone have skyrocketed and personnel costs, such as pay, benefits, and other administrative costs have also increased significantly.

SOLUTION

AB 680 would revise and increase civil fee charges for services provided by a sheriff's department.

Due to increased costs associated with law enforcement, this modest increase of some civil fees will ensure that a sheriff department is able to provide a continued high level of service to the people they protect and serve.
